

**COUNCIL FOR ANTHROPOSOPHICAL HEALTH AND SOCIAL CARE
(MEDICAL ASSESSORS) RULES 2006**

The Council for Anthroposophical Health and Social Care hereby make the following Rules:-

Citation

1. These Rules may be cited as the Council for Anthroposophical Health and Social Care (Medical Assessors) Rules 2006 and shall come into force on the 3rd July 2006.

Interpretation

2. In these Rules unless the context otherwise requires

"the Committee" means the Investigating Committee, the Professional Conduct Committee, or the Health Committee as the case may be;

"Medical Assessor" means an Assessor appointed by the Council;

"the Council" means the Council for Anthroposophical Health and Social Care

"registrant" means a person registered with the Council for Anthroposophical Health and Social Care, and includes a person whose registration is currently suspended. .

Additional Functions

3. A Medical Assessor shall have the following additional functions-

- (a) to give advice to the Council on matters within his professional competence arising in connection with any matter which the Council is considering;
- (b) at the request of the Committee, to examine a registrant against whom an allegation has been made and to report on his fitness to practise with or without conditions;
- (c) to be present at such meetings of the Committee as the Committee may request at which an allegation concerning a registrant's physical or mental condition is being considered and to advise the Committee on the medical significance of the evidence before the Committee;
- (d) to be present at such meetings of the Council as the Council may request at which an appeal is being considered which involves consideration of the physical or mental condition of an Appellant, to advise the Council and Committee on the medical significance of the evidence before the Council and Committee and to question any witness giving evidence of an oral hearing of such an appeal;
- (e) to inform the Council or the Committee if it appears to him that but for such advice, there is a possibility of a mistake being made in judging the medical significance of such evidence (or the absence of evidence) on any particular matter relevant to the matter before the Council or that Committee, whether

relating to the fitness to practise of the registrant or such other question as the Council or that Committee or the Chairman of either may think relevant.

Agreed by the Council for Anthroposophical Health and Social Care this 3rd day of July two thousand and six.

Simon Fielding
Chairman
